

Courtroom seating arrangements

In view of public health consideration, the Judiciary will introduce the following courtroom seating arrangements starting from 13 February 2020 :

- (a) Seating capacity of the public gallery will be reduced by about 50% to enable court users to sit farther away from one another as far as possible;
- (b) When all the designated seats in the public gallery are taken up, no standing will be allowed to observe the proceedings; and
- (c) Hearings will be heard at the largest possible courtrooms in the building, and with broadcasting facilities if possible.
